Revision 3.00.003 (Released 2019-04-23)

1. Revise QEI register DIRF as DIRSTS.

Revision 3.00.002 (Released 2019-03-18)

2. Add CLK_Auto_HIRC_Calibration sample code.
3. Add CLK_HIRC_Calibration function in clk library.
4. Add ISP Sample.

Revision 3.00.001 (Released 2018-11-20)

1. Update Readme.

Revision 3.00.000 (Released 2018-11-16)

1. Primary release version.

Important Notice

Nuvoton Products are neither intended nor warranted for usage in systems or equipment, any malfunction or failure of which may cause loss of human life, bodily injury or severe property damage. Such applications are deemed, "Insecure Usage".

Insecure usage includes, but is not limited to: equipment for surgical implementation, atomic energy control instruments, airplane or spaceship instruments, the control or operation of dynamic, brake or safety systems designed for vehicular use, traffic signal instruments, all types of safety devices, and other applications intended to support or sustain life.

All Insecure Usage shall be made at customer's risk, and in the event that third parties lay claims to Nuvoton as a result of customer's Insecure Usage, customer shall indemnify the damages and liabilities thus incurred by Nuvoton.

Please note that all data and specifications are subject to change without notice.
All the trademarks of products and companies mentioned in this datasheet belong to their respective owners.
